

Recruiting and Human Resources

The Physicians Practice S.O.S. Group empowers individuals and organizations. We work as a career agent for healthcare professionals and assist with the development of employees while maximizing the performance of both the individual and the organization. We work with integrity and are committed to innovation. We are here to provide unparalleled service to meet your career and organizational needs!

About Us

As a private practice consultant group that provides Healthcare Recruiting, Organizational Effectiveness, and Talent Management services for organizations. Our job is to help organizations recruit and hire the best, provide insightful employee assessments to help develop and retain their talent, and to provide tools for applicant tracking and employee background checks. The services that we provide can save organizations administrative time and hundreds of thousands of dollars while having a high impact on the performance and effectiveness of the organization.

We have a team of Healthcare Recruiters and Organizational Consultants who provide quality human capital management and services in the areas of recruiting, program development and organizational effectiveness, executive and management development, talent management and employment assessments for your organization.

Healthcare Recruiting

Services that The Physicians Practice S.O.S. Group provides include Retained (flat fee deposit to engage search for critical positions) and Contingency Search Services (fees are contingent on successful placement) for mid/high level positions and Medical Staffing (contract services; hourly rates) for low/mid/high level positions that include C-level positions, physicians, practitioners, nurses, therapists, and medical office staff. Contact us to determine which services will best fit your needs.
